p. 121-123.

DESCRIPTORS: *Cartilage, *Larynx, *Neoplasms,
Therapy, Surgery, Excision.

On the basis of general experiences surgical removal
of chondromas of the larynx should be done early.
Their growth and their development are incalculable
like the mixed tumors of the parotid gland. Their
radical removal is necessary, as proved in the 2 cases
which were studied.

Heiligtag, Th.
THE CAUSES OF ERRORS IN DIRECTION FINDING.
[1963] [21]p. (tables omitted).
Order from SLA \$2.60

63-14432

Trans. of [Hochfrequenztechnik und Elektroakustik
(Germany) 1923, v. 21, p. 77-100].

DESCRIPTORS: *Direction finding, *Errors, Loop
antennas, Direction finding signals, Mathematical
analysis.

The directional properties of a loop antenna under the
simultaneous effect of two wave beams of the same fre-
quency but different direction, strength and phase is
mathematically analyzed. The results of this investiga-
tion show how the observed errors in bearings, and
poor minimum can be easily explained entirely on the
basis of the simultaneous influence of two waves coming
by different paths from the same transmitter. (Author)
